

Proclamation

By The County Executive

Recognizing National Drive Electric Week

Whereas, the week of September 8th through September 16th, 2018 is recognized as National Drive Electric Week in the United States; and

Whereas, National Drive Electric Week began in 2011 as National Plug In Day with the idea to hold simultaneous events across the country on the same day to raise public awareness of the availability of electric and hybrid vehicles and highlight the benefits of renewable energy sources; and

Whereas, West Windsor Township of Mercer County will hold its first National Drive Electric Week event on September 8th, 2018 to celebrate the benefits of the technology and raise awareness of the advantages of driving electric vehicles; and

Whereas, National Drive Electric Week highlights the economic benefits of creating jobs while reducing the nation's carbon footprint and dependency on fossil fuels; and

Whereas, National Drive Electric Week continues to take on greater importance in light of increasing environmental threats brought about by human consumption and use of non-renewable resources,

Now, Therefore, I, Brian M. Hughes, Mercer County Executive, do hereby proclaim the week of September 8th through September 16th, 2018 as Drive Electric Week in Mercer County, and commend the participants for their efforts to educate the public about the benefits of driving electric.

Brian M. Hughes
County Executive
