MERCER COUNTY AT A GLANCE

GEOGRAPHY AND HISTORY
Mercer County is 226 square miles and twelfth in size of the twenty-one New Jersey counties. About 5.9 million people live within twenty-five miles of Mercer County and approximately one-tenth of the population of the United States lives within a seventy-five mile radius of the County. Mercer County was formed in 1838 from parts of Burlington, Middlesex, Somerset, and Hunterdon Counties. Mercer County consists of twelve municipalities, including Trenton, which serves as both State Capital and County seat. Note: Mercer County had thirteen municipalities until January 1, 2013 when Princeton Borough and Princeton Township consolidated into Princeton.

Source: US Bureau of the Census, County Business Patterns, New Jersey

Note: Prior to 1998 County Business Patterns were tracked using SIC codes. Beginning in 2001 data was solely tracked using North American Industry Classification System (NAICS) codes, therefore previous data cannot be compared using a one-to-one comparison. For example, the agriculture category has been completely changed. NAICS is the product of a cooperative effort on the part of the statistical agencies of the United States, Canada and Mexico and provides a common and consistent classification system for the three countries. Due to major differences in NAICS and SIC structures however, data for 2001 and forward is not comparable to the SIC-based data for earlier years. For further information visit www.census.gov.

Public sector jobs are a significant factor in Mercer County's employment picture, particularly in the City of Trenton and Ewing Township. These jobs are held both by County and Non-County residents.
EAST WINDSOR TOWNSHIP AT A GLANCE

GEOGRAPHY AND HISTORY
East Windsor Township is 15.6 square miles of generally level terrain. On March 9, 1750 "Windsor Township" was designated by King George II and the settlement was pioneered by the John Ely family. In 1797, Windsor Township was divided by an act of the New Jersey State Legislature into East and West Windsor Township. Twin Rivers, New Jersey's first Planned Unit Development of residential and light industrial uses, is located in East Windsor.

EWING TOWNSHIP AT A GLANCE

GEOGRAPHY AND HISTORY
Ewing Township is 15.1 square miles and is partly bordered by the Delaware River. Largely settled by Scotch and British from Long Island in 1700, Ewing Township was severed from the City of Trenton in 1834, taking its name from Chief Justice Charles Ewing. Many important state and county facilities are located in Ewing Township, including the College of New Jersey and Trenton - Mercer Airport.

HAMILTON TOWNSHIP AT A GLANCE

GEOGRAPHY AND HISTORY
Hamilton Township is 39.4 square miles, one of Mercer County’s largest and most populated municipalities. Hamilton Township was originally The Town of Nottingham from 1686 to when it was incorporated in 1842. Hamilton Township experienced much industrial and residential development like its neighbor, Trenton, and has continued to grow residentially since World War II, though farming continues to thrive in the still rural area of the township. Hamilton has experienced a growth in large shopping destinations in recent years.

HIGHTSTOWN BOROUGH AT A GLANCE

GEOGRAPHY AND HISTORY
Hightstown Borough is 1.2 square miles and is entirely surrounded by East Windsor Township. One of the earliest settled communities in New Jersey, Hightstown derived its name from the Haight family, but was confused as "Hidestown", "Ictown", or "Night Town" during the Revolutionary War. Hightstown was incorporated in 1853.

HOPEWELL BOROUGH AT A GLANCE

GEOGRAPHY AND HISTORY
Hopewell Borough is 0.8 square miles surrounded by Hopewell Township. The village of Hopewell was the birthplace of John Hart, one of the signers of the Declaration of Independence. Hopewell Borough became incorporated in 1891 and retains its colonial village character within its Victorian-era neighborhoods at the foot of the Sourland Mountains.

**HOPEWELL TOWNSHIP AT A GLANCE**

**GEOGRAPHY AND HISTORY**
Hopewell Township is 58 square miles of rolling hills and valleys and is Mercer County's largest municipality by area. In 1777, General George Washington crossed the Delaware River from Pennsylvania and landed in Hopewell Township before leading the surprise attack on Trenton. Incorporated in 1798, Hopewell Township is still a mostly rural community with some office campus developments.

LAWRENCE TOWNSHIP AT A GLANCE

GEOGRAPHY AND HISTORY
Lawrence Township is 21.9 square miles and is located in the heart of Mercer County. Originally called Maidenhead in the late 1600s, Lawrence Township was noted for its rich, fertile soil. Renamed after Captain John Lawrence, a naval hero of 1812, Lawrence has experienced much commercial and residential development yet still has many rural areas.

**GEOGRAPHY AND HISTORY**

Pennington Borough is 1.0 square mile. Like Hopewell Borough, Pennington is surrounded by Hopewell Township. Originally known as Queenstown, there was much trade with the local Indians during the 1700's until Pennington was occupied by raucous British and Hessian troops during the American Revolution. Today, Pennington's quaint main street can be found amidst preserved eighteenth and nineteenth century buildings.

PRINCETON AT A GLANCE

GEOGRAPHY AND HISTORY

Princeton is 18.1 square miles and is comprised of the former Princeton Borough and Princeton Township which consolidated on January 1, 2013. In 1697, early settlers Richard and Susannah Stockton acquired 5,500 acres from William Penn. Nassau Street, Princeton's Main Street, was once an Indian trail which later became the King's Highway in the colonial days. After the American Revolution, Nassau Hall was temporarily used as the young nation's capitol. Today, downtown Princeton boasts numerous retail shops surrounded by historic residential neighborhoods and is one of the most affluent communities in New Jersey.

Additional historic data about the former Princeton Borough and Township are listed below. Since Princeton was consolidated in 2013, no new data is available to date.

GEOGRAPHY AND HISTORY
Robbinsville Township, which changed its name from Washington Township in 2007, is 20.7 square miles with a level, rural landscape. In 1677, land was purchased in this area by Quakers from the Lenni-Lenape Indians. In 1859, Robbinsville Township separated from West Windsor Township. Land use types vary from agricultural to warehouse. Robbinsville Township is at the forefront of planning with its award winning Town Center Development.

CITY OF TRENTON AT A GLANCE

GEOGRAPHY AND HISTORY
Trenton, site of both the New Jersey State Capitol and County Seat of Mercer County, is 7.5 square miles and is bordered on the west by the Delaware River. In 1679, a Quaker named Mahlon Stacy established the first grist mill in the area on the Assunpink Creek. In 1777, on Christmas night, General George Washington captured almost 1,000 British and Hessian troops in the surprise attack on Trenton. Trenton became an industrial giant during the 1800s and early 1900s, though today is known more for its role as a governmental center. It is also home to the AA Affiliate of the New York Yankees, the Trenton Thunder.

WEST WINDSOR TOWNSHIP AT A GLANCE

GEOGRAPHY AND HISTORY
West Windsor is 26.8 square miles of generally level land bordered by the Millstone River. Formed on March 9, 1750 "Windsor Township" was ruled by King Charles II, and named after the Royal House of Windsor in England until it became West Windsor in 1797. The Township grew into a prosperous farming community and has experienced much commercial development along U.S. Route One as well as significant suburban development.

SELECTED DEFINITIONS

American Community Survey (ACS) - The American Community Survey is a large, continuous demographic survey conducted by the Census Bureau that will eventually provide accurate and up-to-date profiles of America's communities every year. Questionnaires are mailed to a sample of addresses to obtain information about households -- that is, about each person and the housing unit itself. The survey produces annual and multi-year estimates of population and housing characteristics and produces data for small areas, including tracts and population subgroups. Questions asked are similar to those on the decennial census long form.

Average Labor Force - Labor Force is the sum of employment and unemployment. Average Labor Force represents the average number of people in a municipality who work or who are seeking work.

Average Persons Per Household - This number is obtained by dividing the number of persons in households by the number of households (or householders).

Asian & Other - This represents a total of the Census categories American Indian or Alaskan Native, Asian, Native Hawaiian or Other Pacific Islander, Other, Two Races and Three or More Races.

Charter Schools - Charter schools are independent public schools that provide another education option to parents and students. Because a charter school is not managed by the local school district, it is free to design the environment it believes will best serve students' needs. For this reason it is not counted as part of the Public School Enrollment Data. As of June 2013, the municipalities with Charter Schools are Hamilton Township, Princeton and Trenton City.

School Enrollment - School Enrollment data includes Public School District Data only in this report. It excludes Charter, Private and Parochial Schools.

Hispanic or Latino Origin - People who identify with the terms "Hispanic" or "Latino" are those who classify themselves in one of the specific Hispanic or Latino categories listed on the Census or ACS questionnaire - "Mexican," "Puerto Rican," or "Cuban" - as well as those who indicate that they are "other Spanish, Hispanic, or Latino." Origin can be viewed as the heritage, nationality group, lineage, or country of birth of the person or the person's parents or ancestors before their arrival in the United States. People who identify their origin as Spanish, Hispanic, or Latino may be of any race.

Housing Unit - A house, an apartment, a mobile home or trailer, a group of rooms, or a single room occupied as separate living quarters, or if vacant, intended for occupancy as separate living quarters. Separate living quarters are those in which the occupants live separately from any other individuals in the building and which have direct access from outside the building or through a common hall. For vacant units, the criteria of separateness and direct access are applied to the intended occupants whenever possible.

Median Income - The median income divides the income distribution into two equal groups, one having incomes above the median, and other having incomes below the median.

Per Capita Income - Average Per Capita Income is obtained by dividing aggregate income by total population of an area. The 1999 per capita income was reported in the 2009 ACS 5...
Year Estimates, the 2010 median and per capita household incomes were reported in the 2010 ACS 5 Year Estimates.

**Population Density**

Total population within a geographic entity divided by the land area of that entity measured in square miles. Density is expressed as "people per square mile" of land area.

**Private Sector Employment (Private Sector Covered Jobs)**

Covered employment is a monthly count of full and part-time employees, who earned wages during the pay period including the 12th of the month, as reported quarterly by employers covered by the New Jersey Unemployment Compensation Law. Basically, any employer paying at least $1,000 in wages in the current or preceding calendar year is covered. Jobs not covered by the law fall mainly into the categories of self-employed and unpaid family workers or certain agricultural and in-home domestic workers. Private Sector employment represents the number of jobs (private sector covered) in a municipality. Townships with greater than 60% of it's employment in the Private Sector category may be suppressed per the Census Bureau for privacy reasons. Suppressed numbers are chosen randomly by NJDOL.

**Race**

The federal government considers race and Hispanic origin to be two separate and distinct concepts. Starting with Census 2000, the questions on race and Hispanic origin were asked of every individual living in the United States. The question on race for Census 2000 was different from the one for the 1990 census in several ways. Most significantly, respondents were given the option of selecting one or more race categories to indicate their racial identities.

**Suppressed Numbers**

In order to protect the confidentiality of company-specific information, not all data collected by the government are released to the public. Data suppressed in At-A-Glance are in the Private Sector Employment Statistics. Townships with greater than 60% of it's employment in the Private Sector may be suppressed by the Census Bureau for privacy reasons. In this report Hopewell Borough and Hopewell Township have been suppressed.
