Michele Madiou
Mental Health Administrator

Ann Dorocki
Chief, Office on Addiction Services

Vision Statement

The Mercer County Department of Human Services is a leader in promoting service excellence, maintaining the highest standards and achieving the best results. Our staff is highly motivated, skilled, and dedicated in meeting the diverse needs of Mercer County Residents.

Mission Statement

The Mercer County Department of Human Services fosters a comprehensive human service delivery system that enhances the health, safety, and quality of life for all residents of Mercer County. Our goal is to create an environment of public trust by empowering and strengthening individuals and families, advocating for sound policy, mobilizing resources, and acting as champions for those citizens who are most vulnerable and in need of services.

Board of Chosen Freeholders

**Emergency Mental Health Services
Psychiatric Screening Center
Capital Health Regional Medical Center
750 Brunswick Ave.
Trenton, NJ 08638**

CLINICAL SERVICES ARE AVAILABLE 24 HOURS A DAY, 7 DAYS A WEEK, 365 DAYS A YEAR. TO GET IMMEDIATE HELP, CALL: (609) 396-HELP or (609) 394-6086

Psychiatric Screening Center

Onsite at Capital Health Regional Medical Center (CHRMC), the program offers service designed to stabilize a mental health crisis. These include:

- Crisis hotline
- Emergency screening assessments
- Nursing evaluations
- Assistance with voluntary inpatient hospitalizations
- Information and referrals to outpatient mental health services

Mobile Outreach Program:

The program offers mobile screening services to adults who are unable or unwilling to come to the emergency room at CHRMC. Mobile screeners can make assessments and referrals for outpatient treatment from the community. Mobile screeners can ensure that any person in the community experiencing a psychiatric emergency who requires hospitalization will be immediately and safely transported to the screening center.

Division of Mental Health

The County Mental Health Division directly oversees County funded community mental health services. In conjunction with the State Division of Mental Health Services (NJ DMHS), the County Mental Health Administrator jointly oversees all State contracted community mental health services. The County MH Administrator serves as the Director of the Division. Partially funded through a State salary match, in addition to the co-administration role, the Administrator directs activities for the County MH Board, a twelve member Board mandated by Statute and appointed by the County Executive to provide community based oversight and guidance for these services. In addition to the activities of the Board, the Division convenes regular meetings of the Board's Professional Advisory Committee. Also mandated by statute, the PAC meets regularly to share information and to provide a forum for improving collaboration and services for consumers and family members. Comprised of representatives of all State and County-funded agencies plus others serving the population, e.g. Board of Social Services, City of Trenton, etc., current activities for the PAC include housing, service accessibility, transportation, and advocacy needs. In addition, the Board supports such other community activities as out-reach to the local faith community and public awareness activities. Working jointly with the County Division of Community and Senior Services' Office of Addiction Services, the Division also sponsors a Task Force focused on the unique needs of consumers with co-occurring mental illness and substance use disorders. Additionally, the County Mental Health Administrator is responsible for the deployment and supervision of credentialed Disaster Response Crisis Counselors during times of disaster, as well as oversight of the Mercer County Community Organizations Active in Disaster (COAD).

Since the mid 90's, the Division has also housed the Traumatic Loss Prevention Services Program, which supports activities jointly with the County's Traumatic Loss Coalition. TL/PS provides parent and community education programs aimed at reducing risk factors for teenage suicide in the County. (See TL/PS).

In addition to these activities, the Administrator is regularly involved in other planning and coordinative activities for youth, senior citizens, the homeless and other populations in human services. This includes the Systems Review Committee, an acute care oversight and review group required by the State Screening law, local groups such as the HSAC and Youth Services Commission and service on State planning groups in areas as diverse as medication adherence and community resource development.

The Mental Health Division administers the County Mental Health Program Area Budget. This Budget area includes a number of services jointly funded along with the State and additional services deemed necessary by the County.

Mercer County Traumatic Loss Coalition

Mercer County's Traumatic Loss Prevention Services (TLPS), staffed by a Project Coordinator, provides three main community services. First, TLPS provides educational training workshops and conferences to equip professionals with the knowledge necessary to respond appropriately to crisis events and to minimize personal trauma and the threat of contagion among youth. Second, TLPS holds monthly Traumatic Loss Coalition (TLC) meetings to maintain community cohesion and sustain suicide issue awareness, track traumatic events within Mercer County and respond to diverse community needs affecting youth (TLPS is not a crisis responder nor a counseling or intervention service). Third, TLPS assists schools in preparing their emergency crisis plan using the *Managing Sudden Traumatic Loss in the Schools Manual*. The Traumatic Loss Coalition is a voluntary group of dedicated professionals, community members, and involved residents, formed in 1995 as a result of a series of tragic losses including a number of serial suicides among teenagers which occurred in Mercer County. Current membership is comprised of many different sectors of the community - law enforcement, education systems, mental health professionals, private agencies, public officials, hospitals, local health departments, members of the clergy and others. The TLC meets monthly to discuss traumatic events with particular impact on teenagers and to identify the potential for increased cooperation and collaboration for improved response in future incidents.

Together, the TLPS and the TLC have hosted conferences covering various topics such as suicidal risk-assessment for youth, compassion fatigue for caregivers, adolescent self-injury, adolescent brain development, dual diagnosis - co-occurring disorders, adolescent depression and coordinating the aftermath of a traumatic event. Technical assistance has been provided to interested school systems and municipalities in order to make their crisis response systems more effective in the event that a traumatic loss occurs. Training has been offered for the media on how to report on a traumatic loss event appropriately in order to avoid a contagion effect among other youth (exposure to suicides, homicides and other violent losses affecting the school or community may add to a child's level of risk). Therefore, the name "Traumatic Loss Coalition" denotes the Coalition's efforts to mitigate the effects of all such events on local teenagers through prevention and "post"-vention activities.

For more information contact the Traumatic Loss Prevention Services Office at 609-278-7924. Our office hours are Monday through Friday 8:30 - 4:30.

Office on Addiction Services

The Mercer County Office on Addiction Services is the agency responsible for the planning, administration and coordination of alcohol and drug abuse services in the County. The Office was established in the late 1970's and is a unit of the Department of Human Services.

In January of 1981, a citizen advisory committee was established to advise the County Executive and the Board of Chosen Freeholders regarding the delivery of coordinated alcoholism services in Mercer County. It was called the Mercer County Alcoholism Advisory Committee. By 1983, Public Law 1983, Chapter 531 was passed. This increased the responsibility of the advisory committee. This law established Local Advisory Committees on Alcohol in each county. The Mercer County Advisory Committee was designated as the Local Advisory Committee on Alcohol (LACA). The LACA was required to develop an annual comprehensive plan and recommend the distribution of monies derived from the Chapter 531 funds. They continue to do so today under the name of LACADA, the Local Advisory Committee on Alcohol and Drug Abuse.

To access treatment, a citizen must be a Mercer County resident, have no insurance or be underinsured and be indigent. To obtain services please contact the Office on Addiction Services at (609)989-6897.

Municipal Alliances

The following municipalities have local drug and alcohol municipal alliances:

East Windsor
Ewing
Hamilton
Hopewell Valley/Pennington
Lawrence
Princeton
Robbinsville Township
Trenton
West Windsor/Plainsboro

For more information on the municipal alliance serving your area, contact the Mercer County Municipal Alliance Coordinator at (609)989-6452.

Prevention Services

The Office on Addiction Services is responsible for the alcohol and drug prevention Municipal Alliance Grant funded by the Governor's Council on Alcoholism and Drug Abuse. Each Municipality has a drug and alcohol prevention alliance that uses volunteers to raise awareness and programs on the dangers of alcohol, tobacco, and other drug use, misuse, and abuse. Community involvement greatly enhances these prevention and education programs.

Definitions of Addiction Treatment Services

Withdrawal Management provides supervised withdrawal and detoxification from alcohol and/or other drugs. The client is introduced to recovery concepts and additional treatment services, as recommended.

Residential Treatment Programs provide inpatient service through comprehensive addiction treatment, which includes medical support and social services. Treatment services can range from a 14-day stay to a 45-day stay with up to a 90-day stay for co-occurring disorder clients.

Outpatient/Intensive Outpatient Treatment Programs include assessment, individual and group therapy, family therapy and referral to other appropriate services.

Halfway House Services provide a one to six-month, or more, treatment program for recovering individuals who require further assistance following residential or outpatient rehabilitation. A stable living environment and supportive services are provided halfway houses provide a transitional treatment experience for recovering persons and a sober return to the community. Clients receive an intensive, individualized treatment plan of individual and group counseling, vocational guidance, career planning, and educational, life skills and/or employment opportunities.

If You Need Help for Substance Abuse

To access treatment paid for by Mercer County, an individual must be a county resident, have no insurance or are underinsured and unable to afford services.

For more information, please contact the Office on Addiction Services at (609) 989-6897. The office is open Monday through Friday from 8:30 a.m. to 4:30 p.m.

You will be scheduled for an assessment with a local provider. Following assessment, the level of care will be determined, and a referral for the appropriate services will be made by an outpatient provider.

If you have Medicaid, are Medicaid eligible, or are uninsured up to 350% above the federal poverty level, you can contact the NJ Addictions Hotline at 1-844-276-2777, 24 hours a day, 7 days a week.
